

January 6, 2017

Dear Sjögren's Patient:

Each day research and clinical trials are being conducted to unveil new medications, therapies and diagnostic tools for Sjögren's syndrome and its symptoms. Listed below is information about a *Sjögren's clinical research study* being held in the **Albuquerque** area. Your participation in this study may help with its success and I hope you will take a moment to consider it.

New Mexico Clinical Research & Osteoporosis Center, Inc. is looking for individuals between 18-65 years of age to participate in a research study testing a trial drug for patients with active Sjögren's Syndrome. The research study is taking place under the direction of Dr. Lance Rudolph.

For more information and to see if you may be eligible to participate, contact the trial Research Support Specialist. *If you have questions regarding the project, please contact the number listed below and not the Foundation Office.*
