

# Autoimmune Disease & Sjögren's Syndrome

## Autoimmune Connective Tissue Diseases Often Associated with Sjögren's Syndrome (Secondary Sjögren's)

### SELF HELP

*Please join us for an informative talk with Guest Speaker:*

### **Joseph R. Lutt, MD**

Dr. Lutt is a native of Nebraska and received his MD degree from University of Nebraska Medical Center. He completed both his internal medicine residency and his rheumatology fellowship at Oregon Health and Science University. Dr. Lutt is board certified in internal medicine and rheumatology. He joined CCAO in 2009.

He has particular interest in clinical research and leads CCAO's clinical research program. He is also the director of the bone health program and analyzes the bone density scans that are performed at CCAO. His clinical interests include the management of osteoporosis and autoimmune diseases, with a particular emphasis on inflammatory eye and muscle diseases.
