

Dear Sjögren's Patient:

We are pleased to share information about a new clinical research study already enrolling in your area for individuals with Sjögren's. Your participation in this study could help future patients worldwide and I hope you will consider learning more.

This new study, CFZ533B2201, is looking for individuals diagnosed with Sjögren's. Patients can be male or female, age 18 years or older. Patients will be able to continue taking their Plaquenil or steroids with some restrictions while in the study.

**For more information and to see if you may be eligible to participate please contact:**

Dr. Elena Schiopu  
University of Michigan Health System  
300 North Ingalls Suite 7C27  
Ann Arbor, MI 48109

To learn more contact Daniayl Shamim, Clinical Trial Coordinator (734) 998-1271 or email [shamimd@med.umich.edu](mailto:shamimd@med.umich.edu)

On behalf of the millions of Sjögren's sufferers in this country, I thank you for taking the time to learn more about this study.

Sincerely,

A handwritten signature in black ink, appearing to read "Janet Church", written in a cursive style.

Janet Church  
President & Chief Executive Officer
