

Dear Sjögren's Patient:

We are pleased to share information about a new clinical research study enrolling in your area for individuals with Sjögren's. Your participation in this study could help future patients worldwide.

This new study, CL2-95011-001, is looking for individuals diagnosed with Sjögren's without an accompanying, major rheumatic disease. Participants can be male or female and between 18 and 75 years of age. Childbearing potential participants must use contraceptive methods. With some restrictions, participants may be able to continue taking medications during the study such as:

- Oral corticosteroids at limited dose
- Chloroquine treatment
- Non-steroidal anti-inflammatory medications
- Methotrexate
- Treatments for dryness of mouth
- Treatments for dryness of eyes (artificial tears, lubricants)
- And others

**Study drug and study-related care will be available to eligible participants as well as travel related costs as needed.**

For more information and to see if you may be eligible to participate please contact:

Dr Daniel Wallace  
Wallace Rheumatic Studies Center  
Attune Health 8750 Wilshire Blvd. Suite 350  
Beverly Hills, CA 90211

**Call Erin Avila, primary study coordinator, at (310) 360-9197 or email: [erin@attunehealth.com](mailto:erin@attunehealth.com)**

On behalf of the millions of Sjögren's sufferers in this country, I thank you for taking time to learn more about this study.

Sincerely,

A handwritten signature in blue ink, appearing to read "Daniel Wallace", is positioned above the title "President &amp; CEO".

President & CEO
