

Dear Sjögren's Patient:

Each day research and clinical trials are being conducted to unveil new medications, therapies and diagnostic tools for Sjögren's syndrome and its symptoms. Listed below is information about a *Sjögren's clinical research study* (JHM IRB00219655) being held in the **Baltimore, MD** area. Your participation in this study may help with its success and I hope you will take a moment to consider it.

**The Johns Hopkins Jerome L. Greene Sjögren's Syndrome Center** is looking for individuals over 18 years of age to participate in a research study testing a trial drug for patients with active Sjögren's Syndrome. The study is taking place under the direction of Dr. Thomas Grader-Beck (Principal Investigator), Rheumatologist and Sjögren's Syndrome specialist.

For more information and to see if you may be eligible to participate, contact Susan Robinson, Research Program Coordinator. *If you have questions regarding the project, please contact the number listed below and not the Foundation Office.*
