

Dear Sjögren's Patient:

We are pleased to share information about a new clinical research study already enrolling in your area for individuals with Sjögren's. Your participation in this study could help future patients worldwide and I hope you will consider learning more.

This new study, **LOUISSe**, is looking for individuals diagnosed with Primary Sjögren's, who have no other autoimmune disease such as lupus or rheumatologic condition (rheumatoid arthritis). Patients can be male or female and between the ages of 18 and 75 years of age. Patients will be able to continue taking their Plaquenil or steroids with some restrictions while in the study. The duration of the study is approximately 35 weeks. For more information and to see if you may be eligible to participate please contact:

Dr. Agustin Escalante
University of Texas Health San Antonio, Divisions of Rheumatology
7703 Floyd Curl Drive
San Antonio, Texas 78229

Call Jose Restrepo at (210) 567-4656 or email: restreposuar@uthscsa.edu

On behalf of the millions of Sjögren's sufferers in this country, I thank you for taking time to learn more about this study.

Sincerely,

A handwritten signature in black ink that reads "Steven Taylor".

Steven Taylor
Chief Executive Officer
